

Hello,

I will be graduating from Türkiye Fırat University electrical and electronics engineering undergraduate degree in October. I haven't applied for equivalency because I haven't graduated yet, but I know that our diploma is European equivalency. When I get my diploma, I can forward this to you.

There are a few more things I would like to point out. I do not expect any salary, and frankly, it can be in any factory or R&D center within the BMW Group. I can not say that the location I want to say is very important to me. I want to work in this sector more than anything. And for that, I want a chance from you. You can find my current transcript and high school graduation certificate below. If you want, I can apply for high school graduation equivalency, but I don't think it will reach me in three days. Since I am currently in Germany, it will take a little longer for me to reach the documents.
